DETAILED ACTION

Allowable Subject Matter

1. Claims 17-25 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 23, the prior art of the record fails to show or fairly suggest a digital camera, comprising a buffer in communication with said memory; a first switch; and a shutter button, wherein said first switch disconnects said thinning-out circuit from said buffer to disable said thinning-out circuit when said shutter button is operated.

Claims 17-22, 24 are allowed for the reasons given in claim 23.

Regarding claim 25, the prior art of the record fails to show or fairly suggest a digital camera, comprising a reader for carrying out, in parallel with the writing process, a reading process to read the processed image data stored in said memory at a rate of one screen per a second time period which is shorter than the first time period; a second instructor for instructing said writer to suspend the writing process at a timing of storing in said memory specific processed image data created by said processor after an instructing process of said first instructor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
